SPORTS

**CHILD
Friendly**

Sioen is the World market leader in coated technical textiles. For sports mats, children playgrounds and any other activity where children are involved, we've developed a brand new range of **phthalate free** membranes. Phthalates are a family of industrial chemicals that are generally used as plastic softeners or solvents. Phthalates are harmful when swallowed, absorbed through the skin or inhaled as fumes. Children bite or suck on anything. The Sioen phthalate free range is **child proof** and **environmental friendly**. No better membrane to produce your sports mats, jumping pillows and playgrounds.
